

## Information session about the DSP (Dossier de Soins Partagé - electronic healthcare record) presented by Agence eSANTÉ

What is the DSP ?

What is it for ?

What are its benefits for me?

How to use it and give access to my doctor?

Since last year, medical imaging results are no longer delivered on CD, they are now automatically integrated into an electronic healthcare record, the DSP, which also contains other useful medical information. The College of Mayor and Aldermen and the Intercultural Living Together Commission (CCVEI) invites residents to participate in an information session given by experts from Agence eSanté.

**Wednesday, 18<sup>th</sup> of June 2025 · 7 p.m.**

**Kulturhaus · 6, rue de Mersch · L-8181 Kopstal · Luxembourg**

Language: English (Luxembourgish and French available as options)
